

# ART EDUCATION

---

The Master of Education degree program in art education allows the graduate student to integrate art education, studio, art history and related academic areas (e.g., psychology, special education, technology and innovation, and languages and cultures). Graduate students are encouraged to experiment and explore in a variety of areas.

The Department of Art is housed in a well-designed and spacious art building, Breidenstine Hall. The 56,000-square-foot facility includes uniquely designed studios for ceramics, design, drawing, metalsmithing, painting, photography, printmaking and sculpture. It also houses two art galleries, a digital fabrication lab, and a large art history lecture room. Up-to-date tools and equipment offer students the opportunity to explore a wide variety of art processes.
