

INTEGRATED SCIENTIFIC APPLICATIONS

ISCA 579: 1-3 s.h.

Experimental

Experimental course number for Integrated Scientific Applications. Topics vary.

ISCA 580: 1-6 s.h.

Independent Study

Independent Study in Integrated Scientific Applications.

ISCA 591: 3 s.h.

Intro Geospatial Info & Tech

Explores the core concepts of geographic information and the tools and technologies employed to access, manipulate, analyze, and display geographic information. Topics include geographic information systems, remote sensing, global positional systems, cartography, spatial science ethics, and crowdsourcing of geographic information. Reserved for Integrated Scientific Applications majors or permission of instructor.

ISCA 679: 1-4 s.h.

Experimental

Experimental Course in Integrated Scientific Applications
