INTEGRATED SCIENTIFIC APPLICATIONS

ISCA 579: 1-3 s.h.
Experimental
Experimental course number for Integrated Scientific Applications. Topics vary.

ISCA 591: 3 s.h.
Intro Geospatial Info & Tech
Explores the core concepts of geographic information and the tools and technologies employed to access, manipulate, analyze, and display geographic information. Topics include geographic information systems, remote sensing, global positional systems, cartography, spatial science ethics, and crowdsourcing of geographic information. Reserved for Integrated Scientific Applications majors or permission of instructor.

ISCA 679: 1-4 s.h.
Experimental
Experimental Course in Integrated Scientific Applications
