

ART EDUCATION, B.S.ED.

Millersville University's Art Education program will cultivate your passion for art and prepare you to share that passion with others. The program, which culminates in a Bachelor of Science in Education degree, is designed for students who aspire to become art teachers. Upon completion, you will be eligible for certification to teach students grades K-12 in the state of Pennsylvania. With Pennsylvania's high standards for teacher preparation, graduates from MU's Art Education program are recruited both regionally and nationally.
