EDUCATIONAL FOUNDATIONS

Educational Foundations (EDFN) is the education home to secondary BSE majors. We believe strongly that teachers must both know the subjects they teach and how to teach them to students. Because of this belief, we value our partnership with liberal arts departments in providing education courses, field experience, and co-advisors for our undergraduate secondary education students. This partnership also includes content specific preparation.

Educational Foundations is also home to two multidisciplinary concentrations, Educational Studies and Applied Disability Studies.

 Experimental
EDFN 211: 3 s.h.
Foundations Modern Education (D)
This course provides an analysis of the philosophical, anthropological, sociological, economic and historical foundations for the contemporary PreK-12 school system in the United States; more specifically how issues of race, ethnicity, language, gender, disability, sexual orientation, geography, socioeconomics and religion influence the profession of teaching in particular grade-level contexts. The content for each section will be focused on the respective program area of the candidates (PreK-4 grades, 4-8 grades, and 7-12 grades). The course addresses the Pa. Dept. of Education’s sociocultural standards for English-language learners. Must be taken simultaneously with EDFN 241. Includes field experience, which requires submission of satisfactory FBI, Act 34/151 clearances for eligibility for field placement.

Women and Education (P)
This course uses philosophical analysis and a sociology of knowledge approach to examine women’s and girls’ experiences with respect to educational institutions as they exist in contemporary America. These concerns are explored dialectically, examining not only how educational institutions and opportunities shape women, but also how the presence of women in educational activities alters the nature of that enterprise. Offered periodically. Prereq: COMM 100, ENGL 110, junior status.

Instructional Technology in Elementary Education
Students use case studies to explore the uses of technology and its application in elementary education. Topics include computer basics, applications software, curriculum integration, evaluation of educational software, telecommunications and multimedia presentation systems. Students are provided a series of hands-on experiences with hardware and software to develop the skills and competencies required of the elementary education teacher. Offered in fall, spring. No credit given if credit earned in EDFN 130, 220, 230, 330/530, 333/533 or EDAR 330/530.

Instr Tech, Design, Assessment
Instructional design and assessment will be used as a basis for planning and evaluating the use of technology for student-centered teaching and learning within specific disciplines. Offered in fall, spring. Admission to advanced professional studies. No credit given if credit earned in EDFN 130, 220, 230, 320/520 or EDAR 330/530. Taken with professional bloc. Professional bloc field experience includes approximately 150 hours in schools.

EDFN 336: 3 s.h.
Assistive Technology & Online Learning
Designed to provide pre-service special education teachers with experiences in the use of technology in teaching and online learning. This includes assistive technology by students with disabilities to become more independent, as well as the use of a variety of instructional technologies to encourage more active and effective learning. In addition, teacher candidates will learn various technological strategies and tools that can be used to provide different paths for student achievement and enhance student learning.

EDFN 355: 3 s.h.
Living Online (D, P)
“All the world's a stage” famously open Act II of As You Like It, a Shakespearean comedy uniquely positioned to showcase the valleys and peaks of human experience. Interestingly, as the world's stages become increasingly technological and anonymous, how youth learn, think, and find voice has also shifted. Looking beyond the social posturing characteristic of today's “selfie generation,” these contexts offer incredible insights about the nature of learning and identity development. This course will explore the work of social theorists, technology gurus, public policy makers, and youth participants who continue to grapple with ever-changing landscape of social media. Using major current events as a lens: #EgyptianRevolution #OccupyWallStreet #RapeCulture #AllLivesMatter #Islamophobia, this course explores social media as a culturally mediated/sustaining response and practice worldwide.

EDFN 376: 3 s.h.

Culture & Education Seminar
Humans are divided into different groups based on religion, language,
ability, beliefs, ethnicity, appearance, values, traditions and many other
markers. Effective communication across these differences requires
all humans, and teachers in particular, to develop skills that enable
successful interaction and collaborate across boundaries. Culture can
be understood, at least partially, as the background and preconceptions
humans carry into any interpersonal situation. Since culture constitutes
the keystone of identity, it is a key source of conflict between people,
particularly in the teacher-student relationship. This seminar pairs
discussions and readings about the nexus of culture, identity and
education with immersion in different cultures, internationally, nationally
and locally, to develop a deeper commitment in students to be effective
teachers for all children across all differences. Prereq: EDFN 211 and 241
