TECHNOLOGY & ENGINEERING EDUCATION MINOR

The minor in Technology & Engineering Education is designed to help students prepare for the Praxis subject area specialty examination in Technology & Engineering Education. Successful completion of these courses, combined with a passing score on the subject area exam, should provide adequate preparation for teachers of other subjects to effectively deliver courses in Technology & Engineering Education at the K-8 level as these programs tend to be broad-based survey types of courses. It is likely that individuals would need more preparation to deliver courses with more depth at the high school level, but the certification is for all courses K-12.
