A degree in Actuarial Science will prepare you to combine mathematics and statistical thought patterns to assess risk in insurance, finance and other industries. Actuarial Science majors are highly coveted in today’s workforce. Their expertise is honed over many years of intensive education and they emerge after graduation with the skill set to be a highly valuable member of any time.

At Millersville University, Actuarial Science is an option within the Mathematics major. Students successfully completing the option will be prepared to take the first examination administered by the Society of Actuaries.
