

# MANAGEMENT, B.S.

The Management program at Millersville University equips students for a variety of roles and allows them to enter the business field at a high-level position upon graduation. A BS in Management helps students earn a leadership role in a business or non-profit firm. All organizations require leaders, and our management program teaches the fundamentals of managing resources, hiring, training, and developing teams, as well as creating effective organizational structures. Our management program exposes students to all major functional areas of a business but also will allow you to focus on courses in human resources, entrepreneurship, operations, or leadership based on your individual career goals.

## Major in Management
