MULTIDISCIPLINARY STUDIES, B.A. – ATLANTIC WORLD STUDIES OPTION

The Atlantic World Studies major combines history, archeology and hands-on, multidisciplinary skills useful for a newly emerging job market that combines archaeology, history, preservation and cultural resource management. Students will master and utilize a variety of analytical tools to develop a comprehensive understanding of this region of the world, and the diverse cultures and populations that interacted historically throughout the Atlantic region.

The Bachelor of Arts in multidisciplinary studies (MDST) major provides students creative opportunities to integrate and synthesize knowledge in the liberal arts and sciences. Students may select from pre-approved concentrations within the major or work with the program coordinator and faculty advisors to propose a new concentration toward the degree. Program concentrations may combine six courses from each of two supporting disciplinary areas with a culminating capstone experience, which is an advanced course, internship, practicum or applied research seminar.
